Admission to the college does not guarantee admission to the programs listed above. The application materials are collected by the Admissions Office and are submitted to the appropriate Admissions Specialist for consideration. Any application received after the deadline will be accepted and considered only on a space-available basis. All applicants are notified by letter and email concerning their admission status to the program. Selection criteria are program-specific and should be discussed with the Allied Health Advisor prior to submission of application. Only students who have met all the criteria should apply.

• Students must be in “good academic standing” to apply.

• Priority competitive admissions application deadlines are May 7th for the Fall Semester and August 7th for the Spring Semester. For Dental Hygiene only, the application deadline is May 15th.

• The HESI A2 Exam or HOAE must be completed prior to the application deadline.

• Students do not have to complete all of the courses evaluated for competitive admissions to make application, however students will only receive points based on grades received for courses they have completed by the deadline.

• Courses evaluated for competitive admissions must be completed before the start of the occupational phase of the program.

• All of the competitive admissions criteria are current at date of publication but are subject to change with curriculum revisions. Please see your advisor for the most current criteria.

For more information or to apply, please contact Admissions at:
